On September 26, 2019 support ended for Splunk Enterprise version 7.0. Additionally, with the release of Enterprise version 8.0 support for 6.0.x through 6.6.x will end. Once a software version reaches the End of Support (or, if offered, Limited Support), you will no longer have access to any Splunk technical assistance, product fixes or product maintenance for that version, even if you have an active Support Subscription. Upgrading to the latest Splunk Enterprise version provides uninterrupted Support access. You can find Splunk's Software Support Policy at the following link, Splunk Software Support Policy.

Please note: We've introduced new Support and Success Plans to better meet your needs. More information can be found here: https://www.splunk.com/en_us/support-and-services/support-programs.html.
